VEGAS MALL GREEN AREA ENCROACHMENT CASE: BJP LEADERS SUPPORTS "PRAHARI" & SOCIAL ACTIVISTS OF DWARKA

The Vegas Mall management had grabbed/encroached the green area adjacent to the mall towards the metro corridor. The social activists of Dwarka had raised the issue but DDA officials were reluctant to remove the encroachment and restore the green area. The journalists association "PRAHARI" had held a demonstration in front of DDA office at Manglauri and then the concrete and granite tiles were dismantled by JCB under supervision of SE/CC-II & EE/SWD-8.

The sincere efforts of social activists Robin Sharma & Shobhit Chauhan alongwith "PRAHARI" were applauded by West Delhi MP Mr.Pravesh Verma, former MLA Rajesh Gahlot. The BJP councillor from Mahavir Enclave Rajkumar organised felicitation ceremony for "PRAHARI".

On this occasion municipal councillor Rajkumar said " PRAHARI and social activists of Dwarka have done a remarkable job by ensuring the removal of encroachment from land worth 850 crores . On this occasion all the office bearers of PRAHARI were present. Madan Mohan Tanwar vice president of PRAHARI said the journalists will continue to work for society and will keep on raising their voice against corruption .

PM Modi unveils 'Statue of Equality' in Hyderabad to commemorate Saint Ramanujacharya

Prime Minister Narendra Modi dedicated the 216-feet-tall Statue of Tamil Vaishnavite saint Ramanujacharya, which is called as Statue of Equality at Muchintal near Hyderabad. After unveiling the statue, Mr. Modi said India had a strong traditional base which

drew strength from the preaching of great men like Ramanujacharya, who promoted the idea of equality in all aspects of living including faith, caste and creed in the 11th century.

He said, Statue of Equality will encourage youth and is a symbol of Ra-

manujacharya's knowledge, detachment, and ideals.

Prime Minister said, it is important not to leave your roots for development. Mr. Modi's paid glowing tributes to Ramanujacharya and Aazhwar Saints of Tamil Nadu who had established Vaishnavite temples across the country. The people of India owed their value system to the preaching of equality by the great saints, he said.

He said that Ramanujacharya worked for the Dalit community and great leader and advocate of equality- BR Ambedkar was a big follower of Sri Ramanujacharya and abided by his principles on an equal society for all. Though a scholar in Sanskrit, Ramanujacharya gave Tamil language equal importance in Bhakti Marg.

Mr. Modi said there was no social

sanction for evils like discrimination between people in this age. World over, the social order was live and let live with honour and dignity, he said. He also praised the great tradition of Telugu culture, which had been enhanced in recent times by the film industry.

The PM said that the recognition of the Ramappa temple in the erstwhile Warangal district as a World Heritage Site by UNESCO, and of Pochampalli as a world tourism village by the World Tourism Organization, was an extension of the rich cultural heritage left behind by the Satavahana and Kakatiya dynasties.

Union Minister of State for Tourism G. Kishan Reddy said the statue made the ashram, a spiritual centre.

Telangana Governor Tamilisai Soundararajan and Tridandi Chinna Jeer Swamy were also present at the function.

The 216-feet tall Statue of Ramanujacharya is made of 'panchaloha', a combination of five metals gold, silver, copper, brass, and zinc and is among one of the tallest metallic statues in sitting position, in the world.

Monika Miglani at Pochanpur Basant Panchami celebration

On 5th Feb Basant Panchami was celebrated at Pochanpur block B ward 38 where Monika Miglani was invited as guest and was part of the celebration with a whole lot of pomp and grandeur.

Basant Panchami marks the beginning of spring which is referred to as

the king of all seasons. Basant panchami marks the end of winter and the beginning of next season.

Basant Panchami is celebrated in different ways in different parts of the country. Observed as Saraswati Puja and worshipped as Goddess of knowledge.

Stand N Stride celebrated Saraswati Puja

Stand N Stride Foundation(SnS) celebrated Saraswati Puja on 5th Feb on the occasion of Vasant Panchmi with full of spirituality and full of enjoyment in its Sector 6 center. It was its 6th consecutive year of organizing Saraswati Puja. More than 200 people and around 50 SnS children attended this Puja.

A cultural program also done by the SnS students. SnS released its yearly

magazine SnS Patrika on this auspicious occasion.

Chief guest was Mrs. Sudha Sinha, the president of Dwarka Federation of CGHS. She addressed the gathering there and assured her full support to the noble work being done by SnS. Vice Principal of Bal Bhawan School, Mrs. Jaspreet Kaur also graced the occasion with her presence.

ISRO's next Moon mission

ISRO is on a roll with yet another ambitious lunar mission in the offing-Chandrayaan-3. ISRO's next Moon mission might even include bringing back samples from the Moon's polar region. For this mission, ISRO will be tying up with JAXA (Japanese Aerospace Exploration Agency). A statement issued by ISRO has stated, "ISRO and JAXA scientists are conducting a feasibility study to realise a joint satellite mission to explore the Moon's polar region."

A word on JAXA is important here. Besides a recent risky yet successful second landing on an asteroid of Japan's asteroid explorer Hayabusa 2, JAXA in collaboration with other play-

ers is developing a lunar rover to help people live on the moon by 2040. It is also expected to help people live on Mars.

As far as space technology is concerned, India has proven her success, even commercially, by launching the most efficient and technologically sophisticated missiles and space vehicles.

On the other hand, Indian Space Research Organization (ISRO) is arguably the most prominent space technology organization after NASA. ISRO, the government body responsible for developing space technology, is all set to launch Chandrayaan -3 based on the learning from Chandrayaan-2.

The joint mission is slated to be implemented in 2024. It would follow ISRO's first manned space mission in 2022. The two countries have discussed it at top level in inter-governmental discussions during PM Modi's visit to Japan in 2018.

In a written reply to a question in the Lok Sabha, Jitendra Singh, Union Minister of State (Independent Charge) Science and Technology, said, "Based on the learning from Chandrayaan-2 and suggestions made by the national level experts, the realization of Chandrayaan-3 is in progress. Many related hardware and their special tests are successfully completed and the launch is scheduled for August 2022."

Besides the other scientific pursuits, Chandrayaan-3 would also demonstrate India's capability of soft landing on a celestial body, with the rover then communicating with Earth via the existing orbiter from Chandrayaan-2. This orbiter has an estimated lifespan of seven years.

In the last few years, as part of the reforms in the space sector, the government has enabled the entry of private players in space technology. These private players will be able to use the platform and infrastructure of ISRO for a nominal fee and innovate on top of that to offer services for commercial applications.

As per the Economic Survey, the space technology startups are growing exponentially in India and the number has reached 44 within a few years of opening up the sector.

After the launch of Chandrayaan 2, Prime Minister Modi tweeted "Efforts such as #Chandrayaan2 will further encourage our bright youngsters towards science, top quality research and innovation. Thanks to Chandrayaan, India's Lunar Programme will get a substantial boost. Our existing knowledge of the Moon will be significantly enhanced."

The lunar mission will be launched by Japan's H3 launch vehicle, which is currently under development. The lunar mission will send a rover-loaded lander to the moon. The lander will touchdown on the moon's south pole, where water is believed to exist. The rover will then try to explore an area of 500 square meters and try to detect water on the surface of the moon using onboard analysis equipment.

Finally Automate Boom Barrier for societies in Dwarka

After persistent efforts and continuous visits to societies for more than five months the installation of Boom Barrier has been approved under MLA fund. This wouldn't have been made possible without the commendable and persistent effort of MLA representative Ms Monika Mmiglani, who under leadership of MLA Shri Gulab Singh ji has successfully deployed the automated boom barriers in various societies.

In a press conference Monika Miglani, who holds the position of Representative of MLA, Dwarka ward B, Matiala Vidhan Sabha informed everyone about the approval of installation of Boom Barriers in Dwarka.

The installation of Boom Barrier will be financed through MLA's funds as promised to the people in various meetings by AAP. The first slot of Boom Barrier has already arrived. The installation of Boom Barrier will start in several societies immediately.

The name of societies in which the work of installation of Boom Barriers will start this week are :-

1. Mayank Apartment

2. Peepal Apartment
3. Anusandhan
4. IDC Apartment
5. Shahjahanabad
6. DDA Sector 22
7. Vinayak Apartment
8. Sanskriti Apartment
9. Santosh Apartment
10. Pragjotishpur Apartment
11. Shivlok Apartment
12. Rohit Apartment
13. Vrindavan Apartment
14. Eligible apartment
15. classic Apartment
16. Akshardham Apartment
17. Vidyasagar Apartment
18. Som Apartment

She also highlighted the point that the installation of Boom Barriers has been approved after several meetings have been conducted in these 18 societies within the last few months. The final approval is a result of joint team effort and the efforts of MLA. No single person can claim the credit of this approval. This is a great win for the people and volunteers who were

continuously engaged in making it happen.

Whereas her efforts have helped RWAs and societies to secure their gates, late joiners and non-workers have already been lurking to take credit of the things that are completed with the effort of Monika Miglani and her hard working team members. Monika

is undeterred and smiles and very humbly tells the media, "Barking dogs seldom bite" and "hard work never goes unappreciated". She has been working in this ward for years now and this ward is her family. She is only concerned about the well being of her family.

Gulab Singh, MLA inaugurate Boom Barrier at New Jai Bharat Society

Gulab Singh, MLA, Matiala & Capt. Shalini Singh was invited to New Jai Bharat Society, Sector-4, Dwarka to inaugurate Boom Barrier on 30.01.2022. He was welcomed and garlanded by Sh. Yash Pal Singh, Sh. Raj Kumar, Sh. I.M. Khanna, Sh. Hare Krishna Yadav, Sh. Rakesh Gupta and others. During the discussion there was a demand of the Society

Management for release of funds from MLA funds for strengthening and repair of outer wall of the Society and also repairs of shafts which are now very old. Sh. Gulab Singh agreed in principle for such demands. About 70 residents of the Society attended the meeting. Vote of thanks was proposed by Sh. I.M. Khanna.
